### What is an African Road Learning Trip?

African Road Learning Trips are thoughtfully designed to give you an opportunity to experience East African culture and witness the power of community led change. You'll meet extraordinary Changemakers and see the impact of their work and African Road partnership.

On an African Road Learning Trip, we don't just visit projects, we connect with friends. We turn the idea of a 'traditional trip to Africa' on its head. Instead of asking you to come and fix, mend or build, we ask you to arrive open in heart and mind and ready to learn from community leaders in East Africa. They are the experts.

Each Learning Trip is a unique combination of deep conversation, great joy, challenging learning, meaningful team connection and hands on experience which add flavor and meaning to every trip. Activities for group reflection and team building are included each day.

Care is taken to provide expertise, comfortable lodging, fantastic food and a safe and enjoyable experience.

You are invited to join the African Road team for an unforgettable trip 2025 to Rwanda and Tanzania.

## Rwanda

In Rwanda, you'll be amazed by breathtaking scenery, a sparkling clean city, and forward thinking vision. You will savor fabulous culinary creations with delicious local ingredients and rest at night in the world famous Heaven Hotel.

Rwanda is a one-of-a-kind country, having overcome unthinkable violence, devastation and division to now being recognized as one of the safest and fastest developing countries in the world. Kigali is a remarkable destination with its beautiful hilly setting, clean streets, diverse dining options, and gracious people. Rwanda is also a teacher. Rwandans have come together to heal from the trauma of the past, engaging in reconciliation and practicing forgiveness for the sake of a better future.

In respect for the history of Rwanda and with an intent to learn from the history of this country we will make time to visit the Kigali Genocide Memorial. African Road Changemaker partner Philbert Kalisa of REACH, will help us grasp what the country has overcome as we will learn from genocide survivors and perpetrators who, guided by Philbert's work, have been through a remarkable process of healing

and reconciliation together. There is much we can learn from them.

Time and experience at Togetherness Cooperative with Changemakers Steven Turikunkiko and Peninah Mukashema is a centerpiece of this trip. Steven was the first Changemaker partner and the inspiration for the formation of African Road.

Togetherness Cooperative serves hundreds of girls, boys, women and men in the rural area of Mulindi, Ndera Sector. You can anticipate and witness (and perhaps join in) incredible cultural dancing and drumming from Togetherness' own troupe and warm welcomes for everyone. You will witness social change taking place on the soccer field with the young people of Togetherness, push up your sleeves and learn from the women of Togetherness bakery, experience the joy of kids learning in a wonderful preschool and primary school.

Sports, beauty, joy, healing, inspiring leaders, dance, arts, innovative savings groups and small businesses, community-led development and genuine partnership are all hallmarks of this travel experience.

## Tanzania

Dar es Salaam is a bustling port city, sitting on the turquoise Indian Ocean. Industrious and multicultural with sights, sounds and flavors from across Africa, the Middle East, India and beyond. Warm and welcoming, a shining example of diversity and peace. Most importantly for our team, it is the home of the incredible New Hope for Girls Family, and Changemakers Consoler and Eliya Wilbert and the 60 plus girls in their healing care.

Consoler leads as a devoted mama and a brilliant doctor (Phd), as a trauma survivor and a joyful spirit, as a courageous person living with a disability and a deeply wise soul. Her kind husband Eliya is a loving dad to the girls in their care and a phenomenal facilitator of the VICOBA Plus process.

New Hope for Girls, is a unique model for a family based program for fostering, with healing, hope, love and strong community. The 60 plus girls who make up the New Hope for Girls family (along with the Wilberts own biological daughter and son) have been rescued from treacherous

circumstances and are loved, educated and empowered. You can feel the genuine joy that carries this full household forward. Learn how healing is possible in the most difficult circumstances and what genuine empowerment of girls and women can look like. Also, learn and see how African Road partners with New Hope for Girls to equip them toward sustainability. A highlight will be spending a day with the New Hope family playing, preparing food, dancing and celebrating together. We are excited to also visit the New Hope for Girls Forever Home construction site. Get ready for a story worth sharing!

Dar es Salaam is also home to the very inspiring Elimika VICOBA Plus women's cooperative. These vibrant and entrepreneurial women will share how VICOBA Plus mindset change, savings, innovation and strong community has changed their lives. We will visit small businesses, hear stories of creative enterprise and share joy- and surely, dance together.

## 7/15 Tuesday

### MORNING / AFTERNOON

Breakfast and a morning departure for a hands-on learning day at Togetherness.

Hear the history of Togetherness, a remarkable community formed of 80 kids who were orphaned by the 1994 Genocide Against the Tutsi in Rwanda. The determination and vision of the young Steven Turikunkiko, helped people suffering trauma and left without family or resources, to be better off together than alone. Steven was African Road's inspiration for forming. Step by step, African Road has walked with the Togetherness Cooperative as they have built a better future themselves. Today this community is a group of leaders who are serving their neighbors with what they have. Learn about effective community-led development and be inspired.

Spend time with Togetherness Preschool children or try your hand in the Togetherness Women's Bakery (and sample the baked goods!) Rural neighborhood walk, Jerry can water carrying, sewing fun.

Picnic lunch.

### EVENING

Dinner at Heaven Hotel.

## 7/16 Wednesday

### MORNING

Breakfast

We will spend the morning with Changemaker Rev. Philbert Kalisa - hear his story with an overview of the singular work of reconciliation and Unity building led by his organization REACH.

African Road friend, Changemaker Philbert began to work with genocide perpetrators and survivors in 1995. He brought people together through an incredible process, working to forge healing, forgiveness and reconciliation. REACH has helped many of these people then continue to live out daily life in peace together, through the formation of Unity Groups. African Road partners with REACH to bring and expand VICOBA Plus as a tool for furthering togetherness and providing tools and training to equip these group members to innovate, dream big and flourish financially.

The team will have a special and unforgettable opportunity to hear testimony from a perpetrator and a survivor who are now friends and who teach others how forgiveness and reconciliation are possible in the most difficult of situations.

### AFTERNOON
