

New Hope for Girls 'Forever Home' // Progress Report

November 21, 2025

You are part of a transformative story. Thanks to powerful support from you, and a circle of dedicated friends of New Hope for Girls and African Road, significant progress has been made at the 'Forever Home' construction site. We are so grateful and excited to share this report with you.

Jan 2024

Your funding has made these big steps possible:

- Establish legal trust to hold property securely.
- Locate and purchase land in a location near schools and transit
- Architectural design and engineering, with the architects thoughtfully co-creating with the help of New Hope for Girls family
- Bore a clean water well and construct water tower with tank
- Install underground water cistern
- Excavation and rough grade
- Construction of terracing
- Pour the footings and flatwork for the house
- Construct walls on first floor
- Reinforced concrete columns on first floor
- Stairs and second story constructed
- Roof structure and final roofing taking place now!
- Project oversight throughout the entire process

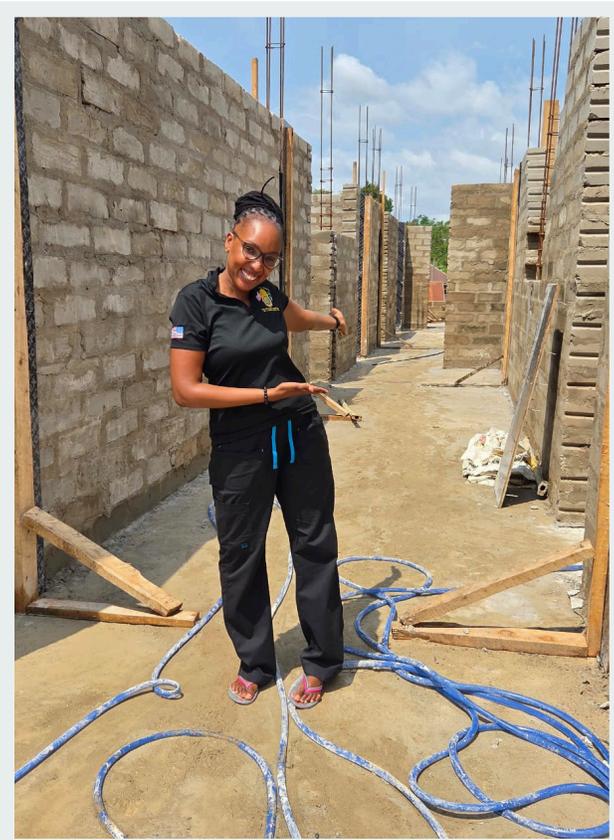

New Hope for Girls 'Forever Home' // Progress Report

April 2025

The Forever Home dream began with locating a junior acre of land with access to schools and transportation. One step at a time, as funding is provided, the dream is taking shape. First joy: a successful well bore to bring clean water. Then the site was prepared with excavation, and building a water tank tower and collection cistern.

August 2025

Can you feel Consoler's joy as she was able to walk the ground floor and see where future rooms will be? The second story was added, to prepare for bunk rooms and bathrooms for the 60 girls. The girls can imagine each having their own mattress and bunk for the first time. Every contribution toward the Forever Home brings a safe, sustainable future one step closer. You are bringing hope!

New Hope for Girls 'Forever Home' // Progress Report

Oct 2025

The 12,800 sq ft home will be fully roofed before Christmas!

To date, \$496,000 has been raised for the Forever Home. **Now, just over \$500,000 is needed to advance the construction enough for the New Hope for Girls family to move in!** That's less than \$8,000 per family member to provide 'forever-housing!' The next step to be funded includes plumbing and electrical installation. When full funding is raised, only 6 months will be needed to build to a point that occupancy will be possible.

Consoler loves to find time to go out to the construction site and sit under "her tree" to watch the building activity.

Nov 2025

"When I am visiting the house I am just crying like I am dreaming. It is feeling like a home coming; our Forever Home is coming. I thank every friend for this love that brings us hope and energy."

Thank you for your tangible care for Dr Mama Consoler, Eliya and all the girls of the New Hope for Girls family. They send their love and gratitude for what you are making possible.

Sincerely,
Kelly Bean
African Road Executive Director
